

MetaDefender Cloud™

Cloud-Native File Security Platform for Advanced Threats

Prevent, detect, and neutralize file-based threats before they enter your cloud environment.

MetaDefender Cloud is OPSWAT's cloud-native file security platform, protecting cloud storage and applications, SaaS platforms, and APIs from malware, zero-day threats, and sensitive data exposure.

It combines advanced threat prevention, data security, compliance controls, and workflow automation. The platform supports fearless collaboration, reduces risk, maintains compliance, and scales without infrastructure overhead.

Modules and Features

MetaDefender Cloud API

Storage Security Cloud

ICAP Cloud

Cloud Security for Salesforce

Native SaaS integrations

Native Integrations

Market-Leading Technologies for Threat Prevention, Data Security & Compliance

MetaScan™ Multiscanning

Analyze files using **20+ industry-leading anti-malware engines** to improve detection accuracy beyond any single AV.

Deep CDR™

Deconstruct, sanitize, and rebuild files using only safe components; neutralize zero-day and targeted threats without affecting file usability.

Adaptive Sandbox (MetaDefender Aether™)

Detonate suspicious files in a controlled environment to expose malicious behavior through dynamic analysis.

Predictive Alin AI

Predict malicious behavior using static AI analysis to identify potentially malicious content, optimized for high-volume cloud workflows.

Proactive DLP™

Prevent sensitive data exposure by identifying PII, PHI, and regulated data across **110+ file types**.

Reputation Services

Check IPs, domains, and URLs for malicious behavior using multiple IP & URL reputation sources.

Enterprise-Grade Protection, Legal Compliance, and Data Privacy

- ✓ SOC 2 Type II certified
- ✓ 20+ Antivirus Engines
- ✓ 90% of the files processed < 8s
- ✓ GDPR-aligned architecture
- ✓ ISO 27001 & ISO 9001 compliant
- ✓ Private processing and regional data residency options

Custom Workflows

File Type & Content-Controls

Conditional Security Operations

Integration-Specific Workflows

Advanced File Handling Rules

Flexible CDR & Enhanced DLP

Secure cloud workflows without compromising
on speed, efficiency, or compliance.
