METADEFENDER

Kiosk™ Mobile 3

## Removable Media Security in Extreme Conditions

MetaDefender Kiosk Mobile 3 is a portable, powerful, and ruggedized solution for protecting critical systems against uncontrolled removable media and malware. Built for use in the harshest environments, Kiosk Mobile is ruggedized to military standards, allowing the secure use of portable and removable media in all conditions and environments.
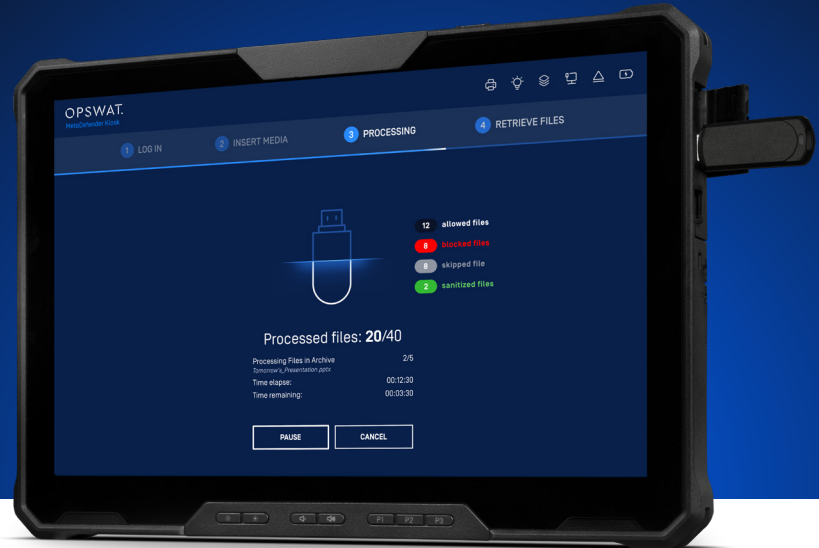

Key Features

Advanced Threat Detection
Scan files with multiscanning technology powered by over 30 anti-malware engines, threat detection levels can exceed 99%.

Country of Origin Check
Gain insights and create policies based on country of origin for files and content.

File Vulnerability Assessment
Uncover vulnerabilities in installers, binaries, or applications before installation to plug any security holes.

File Storage & Data Diode
Integrates seamlessly with local, network, or cloud storage, MetaDefender Managed File Transfer, NetWall, and best-in-class data diode providers for secure data transfer and storage.

Media Validation Agent
Validate digital signatures every time media is inserted into a device, blocking unscanned media from accessing your environment.

Supports Common Media Types
USB Type-A, USB Type-C, SD, and Micro SD.

Privacy and Confidentiality Protection with DLP
Detect and block sensitive data and personally identifiable information (PII).

Clean & Reconstruct Suspicious Files
Remove suspect data from common file types, outputting sanitized and usable files with Deep CDR.

Scan Encrypted Drives
Comprehensively scan and sanitize a variety of encrypted drives.

Multiple File System & Virtual Disk Support
FAT, NTFS, Ext, HFS+ & APFS; VHD & VMDK.

Secure Erase
Wipe portable media completely clean, before loading approved content.

Central Management
Simplify Kiosk management in the cloud and on-premises.
